**Sponsored by UPSTATE MEDICAL UNIVERSITY Office of Continuing Medical Education
and the International Society of Aquatic Medicine (ISAM)**

A SYMPOSIUM ON DIVING MEDICINE

The daily lectures will be related to conditions and medications that can increase the risk of decompression illness, screening for substance abuse, drug testing modalities for substance abuse as related to human diseases and diving fitness.

Daily Lectures, 7-10 AM (Sunday - Thursday), 4-7 PM (Friday)

Daily Laboratory Session: 10 AM - 5 PM (Sunday - Friday)

Dominica, West Indies

TARGET AUDIENCE: Physicians, Clinicians, RNs, PAs, and allied health professionals.

LEARNING OBJECTIVES: Following this activity, participants should be able to:

- Identify medical conditions and medications that can increase the risk of decompression illness, oxygen toxicity, and cardiovascular events for divers.
- Perform a substance use screen in the context of daily practice to identify those at risk of misusing controlled substances and create a safer alternative treatment plan.
- Choose appropriate drug testing modalities to assist in the selection and monitoring of patients who may be candidates for long-term use of controlled substances.
- Counsel patients and families on preventative care, adequate insurance and high cost of futile care.

SPEAKER: J. Paul Martin, MD
Chief Medical Officer
Crescent Health Solutions
Asheville, NC

Faculty Disclosure: Drs. Arusell, Thomas, Martin and Mrs. Thomas have no financial relationships with commercial interests.

Dr. Martin is current President of the NC Society of Addiction Medicine and Chairman of the Buncombe County Drug Commission. Dr. Martin serves as an advisory physician for Diver's Alert Network and is an avid scuba diver.

39th Annual Spring Meeting **Dominica-Fort Young Hotel- Dive Dominica** **May 17-24, 2014** **EARLY REGISTRATION ADVISED**

The 2014 Annual Spring Meeting will find us at the Fort Young Hotel in Dominica, West Indies. Nestled between the islands of Guadeloupe to the north and Martinique to the

south, lush, mountainous Dominica is one of the last Caribbean Islands to feel the tread to tourists' feet. Fort Young is Dominica's premier hotel. The property is an old fort on the edge of a cliff overlooking the Caribbean Sea that has been transformed into a luxury resort. The grounds are both charming and intimate and knowing that the walls were part of an ancient fort adds intrigue and atmosphere to the hotel. The diving will be conducted by Dive Dominica, the oldest and best developed dive operation in the island. Dive boats have been reserved exclusively for our group.

Both the crystal clear water of the Caribbean Sea on its western shore and the nutrient rich waters of the Atlantic on its eastern side bless Dominica, the water island. These two factors, combined with the dramatic walls that plunge 1,000 feet down, directly off shore makes Dominica the undisputed diving capital of the Eastern Caribbean as well as one of the most unusual and popular dive locations in the world!

Diving Highlights: The lush, beautiful scenery that characterizes the topside of Dominican rain forest continues beneath the waters. You will find dense, pristine coral reefs, among the richest in the world. Daily sightings of batfish, seahorses, flying gurnards and all colors of frogfish are not uncommon. There is wall diving, pinnacle diving, reef exploration, wrecks

and even two hot springs dives, where you can observe , first hand, Dominica's volcanic origins. On these dives, you actually see thousands of tiny bubbles rising to the surface from subterranean volcanic activity and feel the water temperature increase dramatically. Experts rate Dominica as a "must see" experience for divers of all experience levels.
