and the International Society of Aquatic Medicine (ISAM)

A SYMPOSIUM ON DIVING MEDICINE

The daily lectures will address pathology seen in dive injuries and dive related deaths, the physical exam to identify risk factors, environmental hazards faced by divers, medications that may increase risk of injury, common travel-related illnesses and the interventions to moderate risks.

Daily Lectures 7-10AM (Sunday – Thursday) 4-7PM (Friday)

Daily Laboratory Session: 10AM -5PM (Sunday – Thursday)

San Salvador Bahamas

Target Audience: Physician, Clinicians, RNs, PAs, and allied health professionals.

Learning Objectives: Following this activity, participants should be able to:

1. Identify certain medical conditions and medications that may have adverse risk on scuba diving.
2. Identify stages of barotrauma and appropriate management in order to reduce unnecessary medication and appropriately advise when to return to diving.
3. Identify potentially toxic reef life during their dives and will render first aid for anyone who suffers an injury from same
4. Identify ecofriendly sunscreen agents that can be used safely in the reef water environment.
5. Identify common medications used to treat lipid disorders/diabetes/hypertension that can adversely affect scuba divers in order to effectively treat these conditions without unintended consequences to divers

Keynote Speaker: Paul Martin
Chief Medical Officer
Crescent Health Solutions
Asheville, NC

Adjunct Speakers: Dr. James Fulcher, Dr. Alan Thomas, Dr. Janet Staples-Edwards, Dr. Ann-Marie Padilla, Dr. Robert Arusell, Dr. Paul Neis, Bridget Thomas, RN, MSN

He maintains an active medical practice in Asheville, NC and has been in practice for 38 years. Dr. Martin is current President of the NC Society of Addiction Medicine. He also serves as an advisory physician for Diver's Alert Network and is an avid scuba diver.

42st Annual Spring Meeting

Riding Rock Resort & Marina and Guanahani Divers

May 20-27, 2017 • 45 Divers • 26 Hours Category 1 CME

The 2017 Annual Spring Conference will find us at Riding Rock Inn in San Salvador, Bahamas. Located on the small island of San Salvador in the Bahamas, the most Eastern Island in the Bahamas chain sits one of the premier scuba diving resorts and fishing Mecca's of the world. Perched on a pinnacle and washed by warm breezes and clear azure waters, the Riding Rock Inn Resort and Marina offer you all the excitement and adventure or rest and relaxation you have been searching for. Remote and wild, San Salvador is a true underwater adventure.

Being one of the southeastern most islands in the Bahamas chain, San Salvador is just

twelve miles long by five miles wide and home to approximately 950 residents. Life on San Salvador is pretty much as unhurried as it has been through the ages. It is still quiet, friendly, and unspoiled with miles of deserted beaches and lush underwater life that was discovered by scuba divers in the 1970's. With over 50 dive sites and average visibility at 100 feet plus, today, San Salvador is known world wide for the quality and diversity of its diving.

San Salvador is one of the top five wall – diving destinations in the region. Shark lovers will be pleased to hear that San Salvador is home to many shark species, the Scalloped Hammerheads being a favorite with our divers.

Riding Rock Inn Resort and Marina is custom designed for dive travelers, with all the facilities close at hand. Its 42 rooms host dive groups, clubs and individuals from around the world every year. Lie out on the beach and enjoy that fantastic Bahamian sunshine

or snorkel the shallow beachfront at your leisure. The swimming pool is also a favorite relaxation spot, as is the hotel's bar and restaurant. The full service marina features the resort's expanded dive shop and equipment rental facilities, as well as guest gear storage and a conference room. To service the special needs of divers, the Riding Rock Inn Resort and Marina also features an impressive trio of custom dive boats, complete with deep V-hulls, walk-thru transoms, and dive platforms with extended ladders, camera rinse and protection from the sun.

The crystal clear turquoise blue waters and the pearly white sandy beaches make San Salvador the perfect travel destination for the ISAM summer conference.

Sun, sand, and sea are merely perimeters of the Islands of the Bahamas. At the core of the islands, you'll find a big heart, open arms, and a way of life that is both timeless and new. It is the Bahamian heritage. It is your departure from everyday life. Welcome!
