Commercial Support: No commercial support was received for this educational activity.

Paul Martin, MD

Is our featured keynote speaker and has been our course director for 7 years. Dr. Martin is board certified in Family Medicine and Addiction Medicine. He graduated from University of Arizona School of Medicine and is a leading specialist in Addiction and Occupational Medicine. Dr. Martin is an Associate Clinical Professor with the University of North Carolina at Chapel Hill. Dr. Martin is immediate Past-President of the NC Society of Addiction Medicine and President of the Southeastern College of Occupational and Environmental Medicine. He is a master scuba diver and an advocate of diving safety.

45st Annual Spring Meeting

Anse Chastanet & Scuba St Lucia

May 16 -23, 2020 • 45 Divers • 29.5 Hours Category 1 CME

The 2020 Annual Spring Meeting will find us at Anse Chastanet in St. Lucia, West Indies. St Lucia is said to be the most verdant and scenically spectacular of all the West Indies. In this wild green land, there are mysterious jungles, steamy volcanoes, secret waterfalls, thick palm forests, and most dramatic of all, two spectacular half mile high peaks- the Pitons-that rise vertically out of the Caribbean Sea. There are many reasons to stay at Anse Chastanet; the most compelling is that it gives you the opportunity to be a part of this beauty.

Tranquility, Romance, Adventure: ANSE CHASTANET is one of the Caribbean's most panoramic resort hideaways. Nestled amidst a 600-acre estate with two soft sand beaches bordering pristine coral reefs, ANSE CHASTANET offers excellent diving facilities and soft adventure activities that include yoga, snorkeling, tennis, sunset sailing, sea kayaking, jungle biking, and hiking and bird watching among the ruins of an 18th century colonial plantation. A complimentary shuttle service from beachside to hillside level is provided

any time it is requested. Travel and Leisure Magazine rate Anse Chastanet as one of the Top 2 Resorts in the Caribbean.

Location, location, location!
This is the fundamental attraction ANSE CHASTANET resort has for traveling divers.

It is in the heart of St. Lucia's very best diving: the entire region surrounding ANSE CHASTANET is vested into an award winning marine reserve (SMMA) which has been established since 1995 to protect the pristine beauty of St. Lucia's coral reefs. Anse Chastanet is on the lee side of St Lucia so divers will enjoy consistently favorable diving conditions. The bay is virtually flat and calm, and there is excellent snorkeling and diving within 50 feet of the shoreline.

The Anse Chastanet reef starts just 10 yards beyond the water's edge. The reef's remarkable ecosystem offers an amazing profusion of unusual tropical marine life, in 20 to 140 feet of calm, clear water. Anse Chastanet Reef, which is home to more than 150 different species of fish, makes for an amazing dive day or night. This reef is a favorite of most professional underwater photographers and videographers who visit Anse Chastanet.

The boat dives should also not be missed - dramatic walls beneath the majestic Piton Mountains, Superman's flight, a drift dive in the shadow of the Petit Piton, Coral Gardens and Jalousie under the Gros Piton, Piton Wall, the wreck of the "Lesleen M", Anse La Raye and Anse Cochon. Closer to home for the afternoon boat trips but no less

spectacular sites, the diver can explore Fairyland, Turtle Reef, Grand Caille, Trou Diable, the Pinnacles and much more...

This unique resort plus extraordinary diving make this a fabulous choice for the ISAM Spring Meeting. We hope you will join us!
